

FALL 2026
MEDIA KIT

JOIN THE EVENT

● **WHAT IS STEM FEST?**

One of the best ways to engage students in science, technology, engineering and math is through hands-on activities. Utah STEM Fest does just that and much more!

Utah STEM Fest allows companies to showcase STEM careers and their support for education and local communities. This free event offers students dynamic opportunities to engage with interactive experiences. Industry representatives open up a world of exciting STEM career possibilities. Students in grades 5–10 will have the chance to explore future careers through conversations with professionals from some of Utah's top employers.

NOVEMBER 10-11, 2026

STEM Fest is a two-day event that will take place **November 10-11** at the Mountain America Expo Center. Join in digitally or in-person to support the STEM field.

PUBLIC FAMILY NIGHT:

STEM FEST isn't only for students, it is open to the public on Family Night, **November 10** from 4-8 PM at the Mountain America Expo Center.

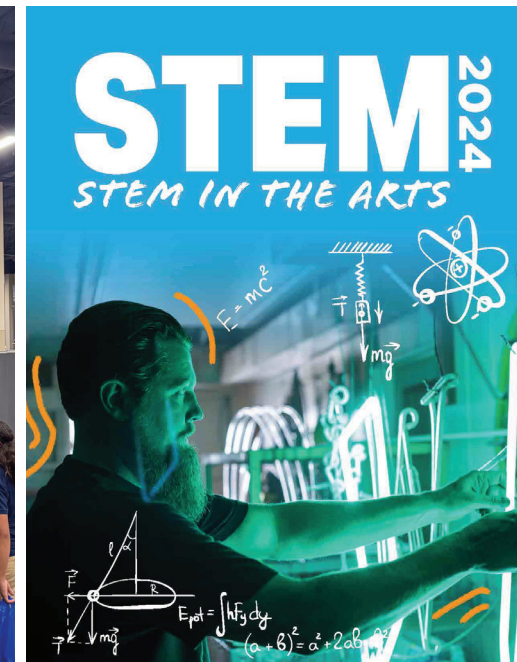

Bring your whole family and experience all that STEM has to offer in education and careers. This event is free and registration for Family Night is not required.

EVENT SPONSORSHIPS

JOIN US IN-PERSON & DIGITALLY

In addition to STEM Fest, we will be sharing our STEM digital magazine with all local schools, libraries and partners. The magazine provides educational content from local and national STEM leaders, STEM activities and promotion for STEM learning and career opportunities from our sponsors and partners.
